### MISURAZIONE INGOMBRI KIT GRAN TURISMO

#### Nota generale

Le misure fornite si riferiscono all'impianto frenante.

Brembo raccomanda un gioco minimo di 3mm tra pinza e razze o canale della ruota.

#### Esempio

1B1.8006A per Chevrolet C5 Corvette (A=46, B=122, C=200)

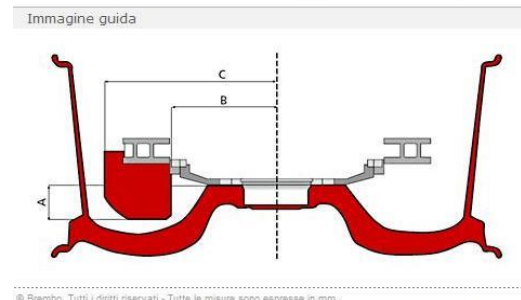

- Con un metro rigido o righello, misurare il cerchione dal centro del foro del mozzo verso l'esterno a 122mm per verificare gli ingombri della parte inferiore della pinza

- Ora da questo punto misurare assialmente verso il retro delle razze per verificare la misura A.

Questo impianto necessita 46+3mm per avere sufficiente spazio

Ripetere queste due operazioni con le misure C e A per verificare il gioco sulla parte superiore della pinza.

Verificare che ci sia sufficiente gioco sia radialmente che assialmente.

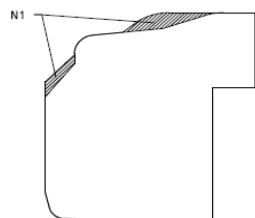

#### INGOMBRI PINZE GT-R - GT - GT-R VS GT CROSSECTION

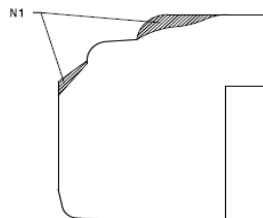

L'area tratteggiata è l'ingombro richiesto per le pinze GT-R rispetto alle pinze GT

Hatched area is additional clearance required for GT-R caliper with respect to standard GT crosssection

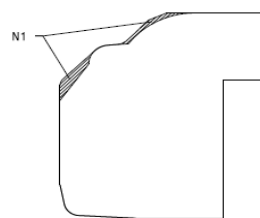

N1

DISCO - DISC 355mm

DISCO - DISC 380mm

DISCO - DISC 405mm
